Floraesters® K-20W Jojoba Improved Skin Smoothness When Used in a Dish Soap

**Objective:**
Evaluate Floraesters K-20W Jojoba for its potential to increase skin smoothness when used in a dish soap.

**Method:**
Skin smoothness measurements using a Visioscan were taken at baseline and 30 minutes after soaking (i.e. sixty 30-second immersions) the hands in a 10% dish soap solution.

**Results:**
The dish soap containing 0.5% Floraesters K-20W Jojoba improved skin smoothness up to 4.3 times more than the vehicle dish soap.
