## Exfoliating Vitamin Enriched Gel

*Products highlighted: Florasomes® Jojoba, Florabeads® Jojoba*

Florabeads and Vitamin E enriched Florasomes are suspended in this clear, aqueous gel. The hard beads help to remove dead cells from the skin's surface, while the Florasomes deposit an elegant film of jojoba esters (moisturization and emolliency) and Vitamin E (free-radical scavenger) onto the epidermis.
