

Smoothing Salt and Sugar Scrub

Products highlighted: *Floraesters® IPJ and Florabeads® Jojoba*

This cleansing scrub formula works well as a body polisher or as a moderate hand scrub. Florabeads Jojoba, sugar crystals, and salt crystals all provide gentle scrubbing action. The Florabeads Jojoba leaves a residual emolliency on the skin and Floraesters IPJ leaves an unmistakable silky smooth feeling.

Mixing Procedure

1. Heat the Finsolv TN to 65°C. With propeller agitation, add the desired preservative (*using quantity recommended by manufacturer*) and mix until completely dissolved.
2. With moderate propeller agitation, add Phase B ingredients in the order listed.
3. Add Phase C to Phase AB with moderate propeller agitation. Switch to sweep action mixing as the viscosity of the batch increases.
4. Add SF 1214 and SF 1528 with moderate sweep action mixing and continue to mix until uniform.
5. Add the two ingredients of Phase E with moderate sweep action mixing. Continue to mix until the batch is uniform. Cool to room temperature. Add Phase F.
